- Time management
- Team Leader
- Fast learner
- Problem Solver

PROFILE

I am a highly motivated ICT Engineering Student, driven by a desire to excel and proven leadership skills. I thrive on new challenges and am eager to take initiative and foster collaboration across departments. With a strong ability to manage tech teams and ensure effective communication among stakeholders using Lean-Agile methodologies like Scrum, I am well-suited to contribute to the success of an organization and develop my abilities in a new professional experience. In the long term, I aspire to coordinate the introduction of new technologies to benefit my country.
